WORK EXPERIENCE

Junior Software Engineer **Sept 2026 - Present**
Nomad - Dublin, Ireland
- Built full-stack features across Nomad's platforms (Iris, Orchid, website and internal ops hub) using TypeScript, Next.js, and React.
- Strengthened production reliability and security by leading framework upgrades and clearing dozens of security vulnerabilities.

Software Engineer Intern **March 2026 - Aug 2026**
Workday - Dublin, Ireland
- Delivered JIRAs for Payroll across the Multiple Positions and UKI teams, working with APIs, toggles, Scrum ceremonies and code reviews.
- Built a Gender Pay Gap Dashboard with two interns using XO and Extend, with a new API for customer data and an AI-powered summary.
- Engaged with customers and the community participating in Feature Focus, the Agent Hackathon, and talks for college students.

Future Females in Tech **Aug 2025 - Aug 2025**
Workday - Dublin, Ireland
- Engaged in workshadowing with software and application engineers, gaining insights into daily development tasks and methodologies.
- Participated in a hands-on UX/UI workshop to enhance design skills and create accessible user-friendly interfaces.

Women in Computer Science Summit **May 2025 - May 2025**
MongoDB - Dublin, Ireland
- Engaged in insightful sessions led by experts covering technical interviews, workplace equality, and different areas of software engineering.
- Enhanced my understanding of NoSQL databases like MongoDB, and how they keep up with the latest advancements in data and tech.

Senior Graphics Officer **May 2024 - Oct 2025**
UCD Internet Society - Dublin, Ireland
- Designed promotional materials in Procreate and Canva, to maintain brand consistency and a professional presence across all platforms.
- Created engaging graphics and illustrated the mascots in Photoshop for events, increasing follower engagement on social media by 25%.

First-Year Representative **Sept 2023 - May 2024**
UCD Internet Society - Dublin, Ireland
- Facilitated communication between members and committee using surveys and Discord, ensuring information flow in person and online .
- Coordinated events weekly with Trello and Excel, gathering feedback and leading to 93% member satisfaction.

PROJECTS

Shoirly: AI-agent audit product for banks **Dublin, Ireland**
CTO
- Cofounded in 4 days for Dublin AI Week's Pressure Cooker by building tamper-evident signed records, DORA mapping and a live gap-detection demo. Made agent actions independently verifiable: any edit or missing action is caught, checked by a standalone verifier.

Machine Learning Flight Delay Predictor **Dublin, Ireland**
Backend Software Developer
- Generated an Flight Delay Predictor that allows data visualisation, analysis and graphs of the most relevant features to cause delays.
- Coded in Python in a Jupyter Notebook with Pandas, Numpy, MatPlotLib, Sklearn and Seaborn, including preprocessing for correct results

EDUCATION

University College Dublin - GPA 1:1 First Class Honours **Graduating May 2027**
Bachelor of Computer Science with Data Science and AI - Dublin, Ireland
Activities: German Society - Women in STEM Society - Hispanic Society
Honours: UCD Advantage Award - UCD Entrance Scholar Award
Significant modules: Algorithms, Databases, Operating Systems, Object-Oriented Programming, Data Structures, Networks, Linear Algebra

IES Juan de Mairena - GPA 9.7/10 **Graduated May 2023**
Título de Bachillerato (Ciencias) / Highschool Diploma (Science) - Madrid, Spain
Honours: Valedictorian - Matricula de Honor in ESO and Bachillerato (Honours Award)

AWARDS

EY NextGen Women in SaT Group Winner **April 2024**
